

ETDMMT2020 - Call for Papers

Authors are invited to submit abstracts through our conference website: <https://www.mypadnow.com/etdmmt2020/etdmmt2020---call-for-papers> [1] on or before Feb 5, 2020. Abstracts should be limited to maximum 300 words, emphasizing significance of analytical or experimental study and originality of the conference. Abstract will be evaluated by a Technical Paper Review Committee. Draft manuscripts of selected abstracts will be evaluated according to technical paper quality guidelines.

All accepted papers will be published in Scopus indexed journals subject to fulfilment of their standards and guidelines

Sessions / Topics / Categories*

Design

- - - Any other
- - - Artificial Intelligence in Automotive & Aerospace Engineering
- - - Autonomous Vehicles
- - - CAD / CAE / FEA
- - - Design for Manufacturing and Assembly
- - - Electric Vehicles
- - - Noise, Vibrations and Harshness
- - - Product and Process Design
- - - Robotics
- - - Smart Hybrid Vehicles
- - - Thermal Systems Design

Manufacturing

- - - Additive Manufacturing
- - - Advanced Machining
- - - Any other

- - - Lean Manufacturing
- - - Materials Forming
- - - MEMS
- - - Nano - Fabrication
- - - Smart Manufacturing

Materials

- - - Any other
- - - Composite Materials
- - - Failure and Fracture of Materials
- - - Functionally Graded Materials
- - - High Energy Materials
- - - Morphing Structures
- - - Nano Materials
- - - Powder Metallurgy
- - - Self Healing Materials
- - - Smart Materials
- - - Smart Structures
- - - Surface Coating
- - - Tribology

Thermal Sciences

- - - Advances in Propulsion Systems
- - - Any other
- - - Energy storage Technologies
- - - Environmental Issues
- - - Flow and Heat transfer in Micro Channels
- - - Fuels & Combustion
- - - Green Propellants
- - - Heat Transfer with Multi-phase Flow
- - - Renewable Energy Systems

Guidelines & Templates for Springer Notes
