

IJACM is a double blind peer reviewed quarterly journal. It is an international research journal and publishes analytical works from all major areas dealing with international trade, commerce and management. It publishes data driven qualitative research articles in the field of commerce and business management. It is also looking for new designs, which can improve the existing knowledge.

IJACM aims to publish application oriented articles in the field of global business. The mission of the journal is to publish advanced theoretical and empirical research papers in the field of economics, finance, banking and insurance, taxation, human resource management, business environment, organizational behavior, e-commerce, and marketing. The findings presented in these articles must demonstrate pioneering thinking and these articles must be practical in nature. These articles are intended to provide valuable inputs to academicians, researchers, policy makers, and others. It also publishes Ph.D abstracts, book reviews, and case studies. It provides online access to the subscribers.
