

# MODI 2024

## MODERNIZED OVER-ARCHING DIGITAL INFRASTRUCTURE

**MODI 2024 International Conference** will discuss the capacity and approach and a method for modernized infrastructure **system design and innovation** in present scenario. Thinking and acting with science, technology, engineering, architecture, planning, economics, public policy, management and other allied disciplines opens up opportunities for thinking and innovation in the world of digital infrastructure.

**This MODI 2024 international conference** explores and evolves the boundaries of sectors and interest groups, and seemingly competing values and goals. Unlocking this **over-arching capacity** is more urgent than ever.
